

FISH EMULSION

2-0-0

Liquid Fish Emulsion

Our FISH EMULSION formula is rich source of protein for all plants. It builds beneficial microbial colonies in soil by acting as a protein source. FISH EMULSION helps improves soil structure and break down of organic matter.

Suggested Application Rates & Method

- Drench: Apply 15-20 L Fish Emulsion per acre with ample water
 - 200-400 mL Fish Emulsion in ample water per 100 linear ft. row
- Consult an agronomist or crop consultant for best advice based on local farm conditions

Special Notes

- Product may settle.
- If used in nutrient tanks, keep the solution aerated or agitated
- Run a small rinse cycle after using any organic liquid in drip or spray tanks
- Check compatibility before combining with other products
- Do not store diluted material in a sealed container, or in irrigation or drip systems
- Microbial growth will occur that can cause odor, gassing, clogging of irrigation systems and render the product ineffective.

Precautionary Statement

This product contains fish. Adverse reactions may occur in sensitive persons. If allergic reaction occurs, seek medical attention immediately. Harmful if swallowed. Avoid contact with eyes, open cuts, or sores. Goggles, gloves, and respirator are recommended to protect against mists and vapors. Wash hands after use.

Storage & Disposal

Store in original package, away from food items in a cool dry place. Keep away from children and animals. Avoid direct sunlight. Recycle the package in accordance with local, provincial, and federal regulations.

Chemical Composition

<u>Component</u>	<u>Typical Analysis</u>
Total Nitrogen (N)	2%
Calcium (Ca)	0.3%
Magnesium (Mg)	0.04%

Physical Properties

<u>Property</u>	<u>Typical Value</u>
Appearance	Liquid Emulsion
Odor	Fish-like
EC (@ 25°C)	21-26 mS/cm
Specific Gravity	1.05
pH	3.2-3.5

Available Sizes

20 L

205 L

1000 L
